MEDICAL CAPABILITY SURVEY AND INVENTORY
OF THE
SHIPS OF THE AMPHIBIOUS FORCE
U. S. ATLANTIC FLEET

October 1970

Authors:
Franklin C. Broadwell
Raymond J. Mataloni
Francis B. Merkle

Prepared Under:
Office of Naval Research
Contract N00014-70-C-0284
Project NR-259-084

For and with the support of the
Bureau of Medicine and Surgery

Distribution of this report is unlimited.

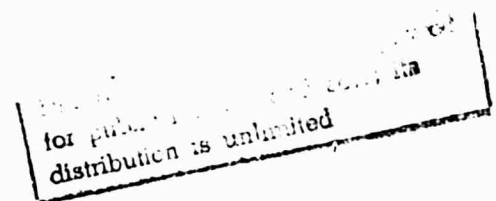

TABLE OF CONTENTS

SECTION I

INTRODUCTION

- 1.1 Purpose of the Ship Medical Capability Inventory
- 1.2 Data Collection Procedure
- 1.3 Method of Report Presentation
- 1.4 Ships Surveyed
- 1.5 Consistency of Data
- 1.6 Limitations on Report
- 1.7 Major Medical Space Overviews

SECTION II

INDIVIDUAL SHIP MEDICAL CAPABILITY REPORT

NOTE: Individual ship booklets are provided for those ships listed in 1.4.

SECTION III

MEDICAL CAPABILITY SUMMARY

- 3.1 Facility Summary
- 3.2 Medical Capability Qualitative Analysis
- 3.3 Medical Care Quantitative Analysis

SECTION I

INTRODUCTION

1.1 Purpose of the Ship Medical Capability Inventory

- 1.1.1 To provide a current inventory of the medical assets of the Amphibious Force, U. S. Atlantic Fleet.
- 1.1.2 To present the information essential to the evaluation of the ships' medical facilities, the selection of those suitable to act as casualty receiving ships and the determination of their capacities in that role.
- 1.1.3 To provide surgical team personnel with current medical capability reference material regarding the ships to which they may be assigned.
- 1.1.4 To focus attention on deficiencies which may be identified so that remedial action may be taken.

1.2 Data Collection Procedure

1.2.1 Ship Medical Capability Questionnaire

- A questionnaire was prepared with a view toward identifying:
 - Medical facilities and equipment of individual ships
 - Quantitative and qualitative medical care which could be provided within the resources of each ship
 - Casualty flow onto and within individual ships
 - Ability of individual ships to support a Surgical Team and/or a Surgical Support Team
- The questionnaire was tested by use in conjunction with visits to the USS GUAM (LPH-9), USS CHARLESTON (LKA-113), USS FRANCIS MARION (LPS-249) and the USS NEWPORT (LST-1179). Deficiencies noted in the questionnaire were corrected.
- A revised questionnaire was then sent to each of the ships of the Amphibious Force, Atlantic Fleet (minus those pending decommissioning) for completion by cognizant, on-board medical personnel.

1.2.2 Ship Medical Capability Inspection

An on-board inspection of medical facilities and equipment of all available ships in the Norfolk area was conducted by contract personnel to verify and supplement data incorporated in the completed questionnaire. Of the forty-five ships involved, sixteen were inspected (one of which was under construction), twelve were deployed, five were in process of being built and twelve were scheduled to be decommissioned.

1.3 Method of Report Presentation

- This report consists of three sections, the introduction, the reports of individual ship's medical capability and a medical capability summary. The individual ship medical capability portion, Section II, is designed so that it may be divided into individual ship medical capability booklets.
- The information presented in this report is based upon that provided by the ships in response to the questionnaires. When feasible, amplifying information was obtained by visits to the ships, as stated in paragraph 1.2.2. The deficiencies and comments noted are those considered important by the medical personnel of the ships concerned.

1.4 Ships Surveyed

Figure 1-1, Ship Medical Capability Survey Method and Remarks lists the ships of the Amphibious Force, U. S. Atlantic Fleet. It identifies the method by which the survey was conducted and provides appropriate remarks plus the identification code of the authorized medical allowance for each ship.

1.5 Consistency of Data

The process of summarizing the data contained in the questionnaires disclosed a number of cases of apparent inconsistency. Some appeared to be the result of differences among ships of the same class, whereas others might be attributed to errors in recording data. To the extent feasible, such inconsistencies were corrected by comparisons among sister ships, by reference to the available drawings, etc. The tabulation of compartment numbers shown in Figure 1-2, Data Sample, derived from the questionnaires from four supposedly similar ships, is an example of apparent inconsistency.

1.6 Limitations on Report

This report is not a complete report of the total medical capability of the ships of the Amphibious Force, U. S. Atlantic Fleet, owing primarily to the short time available and to the fact that a number of ships were deployed. These two factors combined to limit the number of ships which could be visited. In order to permit the insertion of additional information as it becomes available in the future, tabs for all ships receiving questionnaires are included in the initial submission of the report. The loose-leaf binding employed will facilitate such future additions.

1.7 Major Medical Space Overviews

In the cases of those ships in which it was practicable and profitable, major medical space overviews (composite layouts of the medical spaces) have been provided to show the major medical spaces.

TYPE-HULL	SHIP NAME	SURVEY METHOD		REMARKS	AUTH. MEDICAL ALLOW. CODE
		QUESTIONNAIRE	VISIT		
LCC-18	USS POCONO	No	No	Decommissioned

USS MOUNT WHITNEY

LCC - 20

TACTICAL MISSION:

See NWIP 11

MEDICAL MISSION:

- (1) Medical care for ship's crew
- (2) Medical support to other ships
- (3) Medical support for embarked non-crew personnel

MEDICAL ASSETS:

Asset	Normal Use/Type	Remarks
Triage Area		Not established
Operating Room(s)	Main OR	
Non-Ded OR(s)	Surg. Dress Room	
Minor Surgery Room	Surg. Dress Room	Same as Non-Ded OR
Primary Ward	Ward	19 beds
Overflow Ward(s)		None
Quiet Room(s)		4 beds
Intensive Care Unit		None
X-Ray	Fixed Unit	300 ma
Physiotherapy		Wool, Baker, I.R. light
Pharmacy		Standard
Blood Storage		Not determined
Morgue	Refrigerator	
Dental OR		2 complete OR's
Dental X-Ray	Fixed Unit	Not installed
Laboratory	Clinical Lab	Diagnostic tests
Admin. Office	Admin.	3 desks, 6 files
Supply Room		Not established
Battle Dressing Stations	Main BDS same as Minor Surgery	Only Main BDS established to date

CASUALTY FLOW:

Not established - ship under construction. However, there is a 12' x 12' elevator which runs directly from helo pad to medical spaces which would be logical casualty flow route.

SIGNIFICANT DEFICIENCIES:

None reported - ship under construction.

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Letter file Type III
- 2-Legal file Type I
- 3-Legal file Type II
- 4-Visual index
- 5-Desk

LABORATORY

LOCATION: 3-104-4-Q

CAPABILITY: Routine diagnostic laboratory procedures. Whole blood storage capability not determined since ship is still under construction.

MAJOR EQUIPMENT:

1-Centrifuge	5-Incubator
2-Water bath	6-Variable speed rotator
3-Shaker	7-Binocular microscope
4-Refrigerator	

NOTE: Other equipment may be installed when construction is complete.

X-RAY (Fixed)

LOCATION: 3-119-2-Q

MAJOR EQUIPMENT:

1-300 ma X-Ray unit	5-Film file cabinet
2-Film cassette transfer	6-Dark room safelight
3-Film holders	7-Film dryer
4-View box	8-Developing tank

PHYSIOTHERAPY

LOCATION: 3-109-4-L

MAJOR EQUIPMENT:

1-Whirlpool bath, leg
2-Baker light
3-Infrared lamp

PHARMACY

LOCATION: 3-119-1-Q

CAPABILITY: Routine dispensing of drugs and medications.

MAJOR EQUIPMENT:

1-Locker, Safe-Type 1	4-Distilling apparatus
2-Acid locker	5-Shelving
3-Refrigerator, Type III	

CENTRAL SUPPLY/STERILIZATION ROOM

LOCATION: 3-113-1-Q

Autoclaves by type:

- 1-Sterilizer, Surgical instrument 6530-973-9716
- 2-Sterilizer, Pressure type I size 3

DENTAL X-RAY (Fixed)

LOCATION: 3-113-2-Q

MAJOR EQUIPMENT:

- | | |
|--------------------------|------------------------|
| 1-X-Ray tank master | 4-Dental X-Ray unit |
| 2-X-Ray darkroom cabinet | 5-Dental X-Ray viewbox |
| 3-Dental operating chair | 6-X-Ray drier |

CASUALTY FLOW:

- (1) Helicopter to Flight Deck to #1 aircraft elevator to Hangar Deck to electric or air hoist to triage area adjacent to Sick Bay.
- (2) From boat, hoist by aviation crane to #1 aircraft elevator, then same as by helicopter.

SIGNIFICANT DEFICIENCIES:

- (1) Ship vibrates severely at 16 knots and above, to the extent that X-Ray and laboratory work must be suspended.
- (2) Permanent casualty hoist from Hangar to Sick Bay is needed.
- (3) Better athwartships access for Medical Spaces is needed.

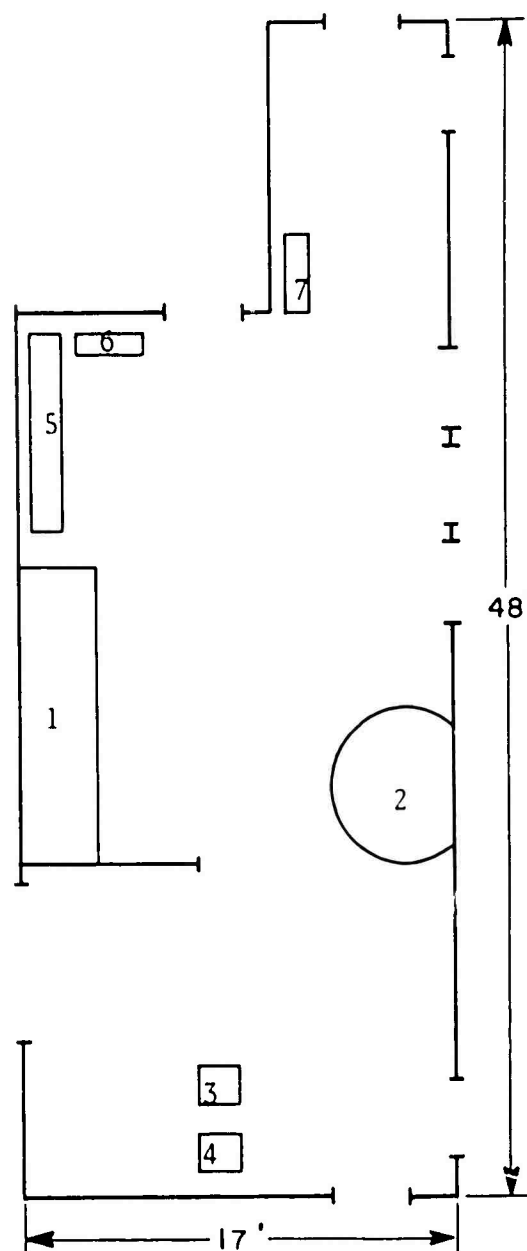

TRIAGE AREA

LOCATION: 01-111-0-L (Lobby), augmented by Hangar Deck, if needed

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Storage locker
- 2-Blood bank
- 3-Air hoist 1/2 ton
- 4-Electric hoist 1/4 ton
- 5-Large oxygen bottles
- 6-Small oxygen and nitrous oxide bottles
- 7-Small oxygen bottles

LABORATORY

LOCATION: 01-119-1-L

CAPABILITY: Routine laboratory procedures required for diagnostic studies. Whole blood storage capability of 200 pints.

MAJOR EQUIPMENT:

1-Microscope (Binocular)	6-Centrifuge, Model SBR
2-Spectronic 20	7-Flame photometer
3-Incubator	8-Refrigerator
4-Water bath	9-Variable speed rotator
5-Centrifuge, Model CL	

NOTE: A drying oven is scheduled to be installed during this yard period 6640-435-7320.

X-RAY (fixed)

LOCATION: 01-125-1-L

MAJOR EQUIPMENT:

1-X-Ray unit 300 ma with table, transformer, and fluoro unit.
2-Tank, master
3-X-Ray dryer
4-X-Ray unit 30 ma portable

NOTE: X-ray film processor to be installed during this yard period.

DENTAL X-RAY

LOCATION: 01-117-3-L

MAJOR EQUIPMENT:

1-Ritter chair
2-Weber X-Ray unit
3-Morse X-Ray film tank
4-X-Ray film dryer

PHYSIOTHERAPY

LOCATION: 01-129-2-L

MAJOR EQUIPMENT:

1-Leg whirlpool 2-Arm whirlpool

PHARMACY

LOCATION: 01-115-3-L

CAPABILITY: Filling prescriptions of drugs carried in the Federal Stock Catalog. Compounding of solutions, powders, suppositories and capsules.

EQUIPMENT:

- 1-Knife edge balance
- 2-Still
- 3-Demineralizer

CENTRAL SUPPLY/STERILIZATION ROOM

LOCATION: 01-116-1-L

Autoclaves by type:

Steam sterilizer, Pressure 35 to 75 P.S.I. (6530-973-9716)

Electric sterilizer, Pressure 33 P.S.I.

Sterilizer, boiling

Other major equipment:

Portable Bovie unit

Note: Sterilizer, Pressure, High Speed - to be installed during this yard period, Model: R-2036.

MORGUE

LOCATION: No space specifically designated. Refrigerator(s) would be used as required.

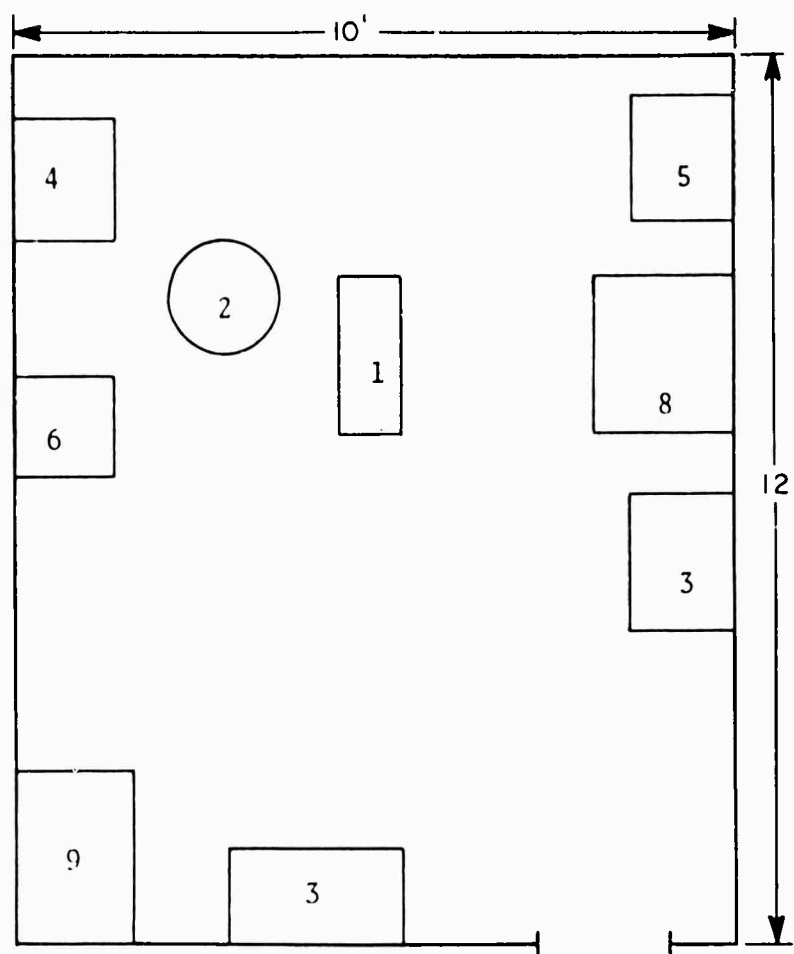

DENTAL OPERATING ROOM #1

LOCATION: 01-119-3-1

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Ritter chair
- 2-Weber P-64 unit
- 3-Hamilton cabinets
- 4-Speed clave
- 5-Dri-clave
- 6-Surgical pump
- *7-2 each Pedigo chairs
- 8-Sink
- 9-Desk

*Not shown on drawing

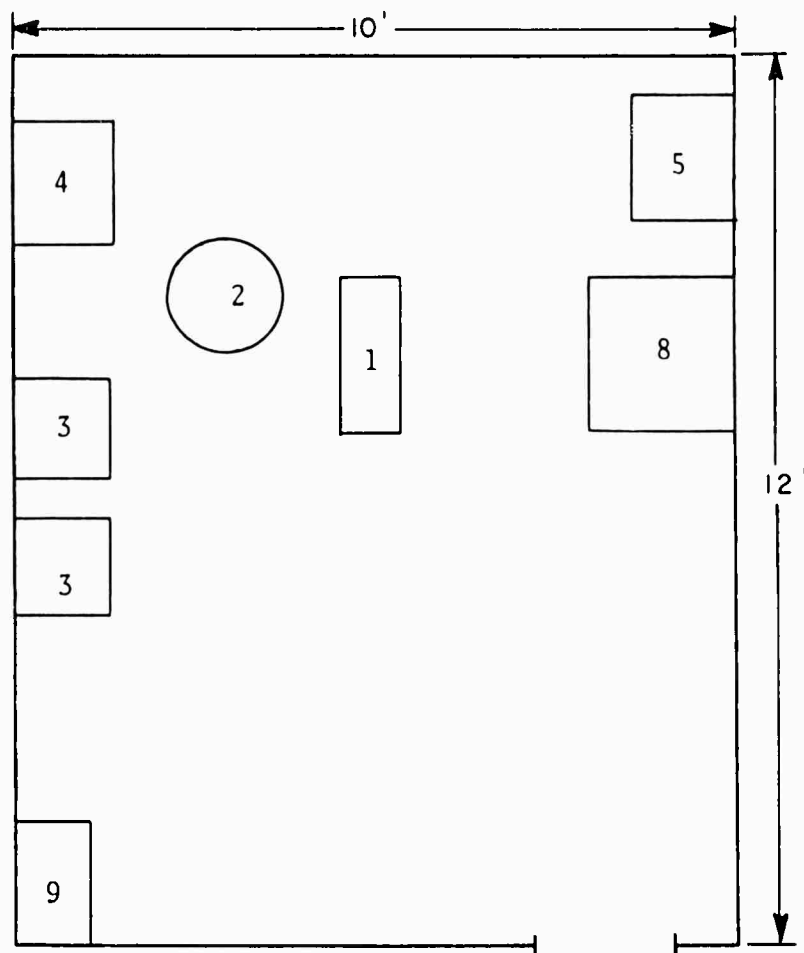

DENTAL OPERATING ROOM #2

LOCATION: 01-115-9-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Ritter chair
- 2-Weber P-64 unit
- 3-Hamilton cabinets
- 4-Speed clave
- 5-Dri-clave
- *6-Surgical pump
- *7-2 each Pedigo chairs
- 8-Sink
- 9-Desk

* Not shown on drawing

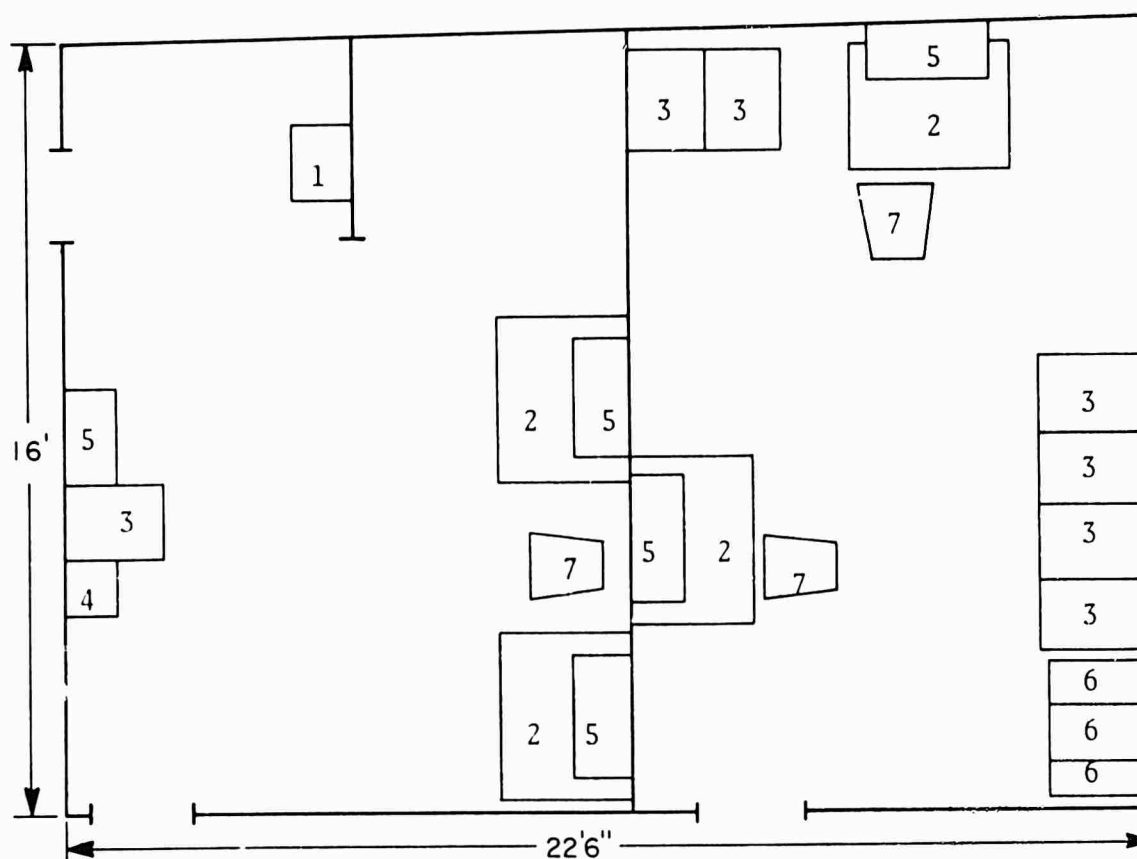

MEDICAL ADMINISTRATION

LOCATION: 01-117-2-Q and 01-115-6-Q

MAJOR MEDICAL SPACE OVERVIEW

FLOOR PLAN: Not to scale

(See Reference, Page 2)

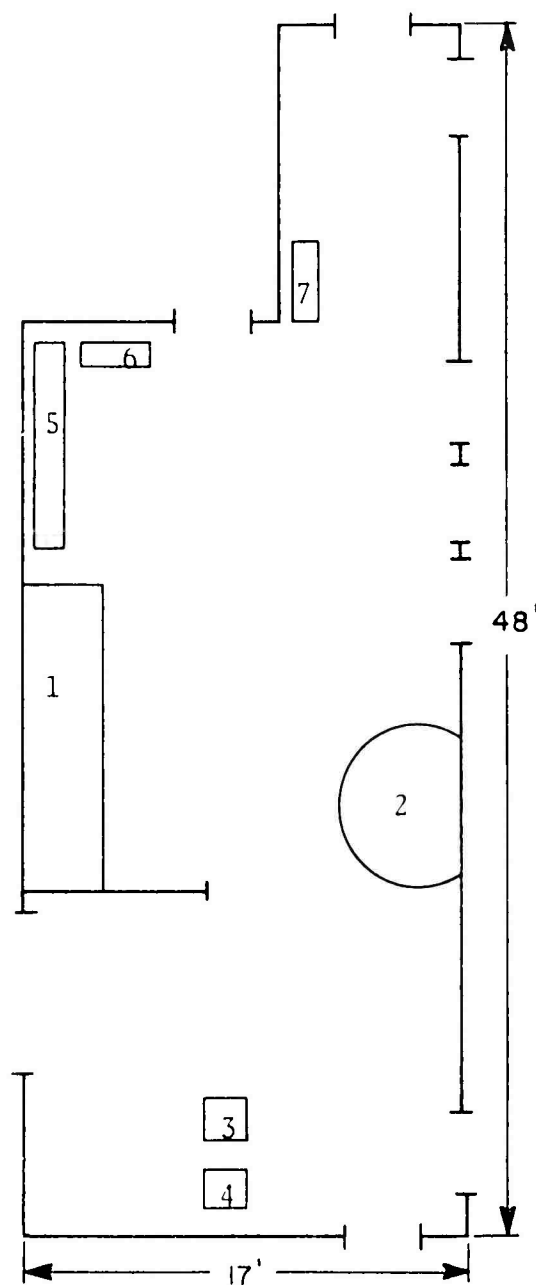

TRIAGE AREA

LOCATION: 01-111-0-L (Lobby), augmented by Hangar Deck, if needed.

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Storage locker
- 2-Blood bank
- 3-Air hoist 1/2 ton
- 4-Electric hoist 1/4 ton
- 5-Large oxygen bottles
- 6-Small oxygen and nitrous oxide bottles
- 7-Small oxygen bottles

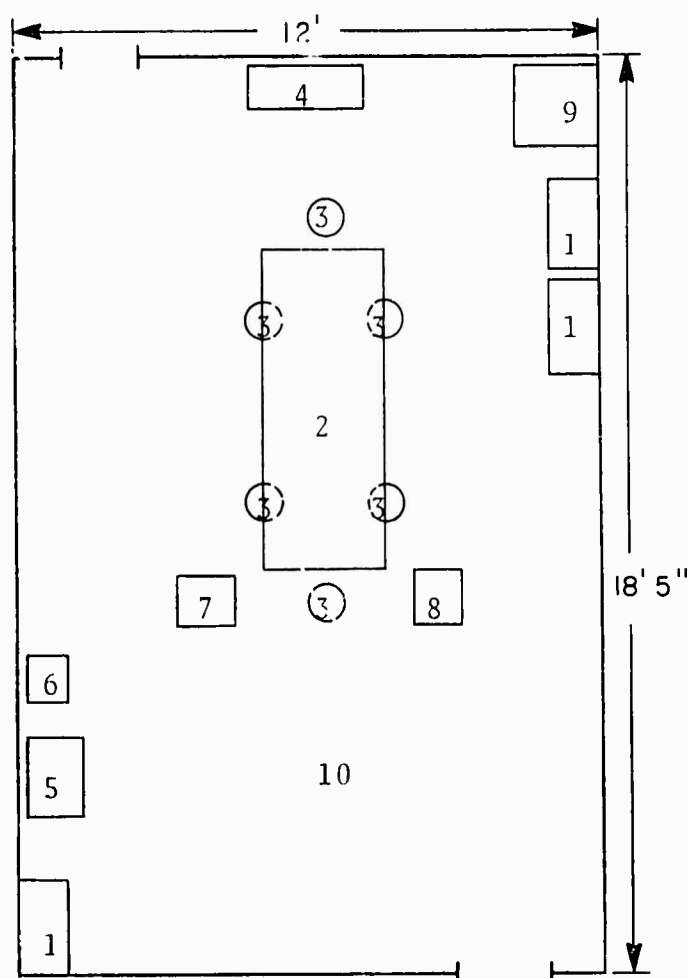

OPERATING ROOM

LOCATION: 01-119-0-L

FLOOR PLAN:

EQUIPMENT:

- 1-Instrument and dressing stand
- 2-Operating table, pedestal
- 3-Castle lights
- 4-X-Ray film viewer
- 5-Emerson ventilator-respirator
- 6-Hyfreator
- 7-Anesthesia machine
- 8-Suction and pressure apparatus
- 9-Portable X-Ray 15ma
- 10-Static conductive linoleum

OPERATING ROOM (non-dedicated)

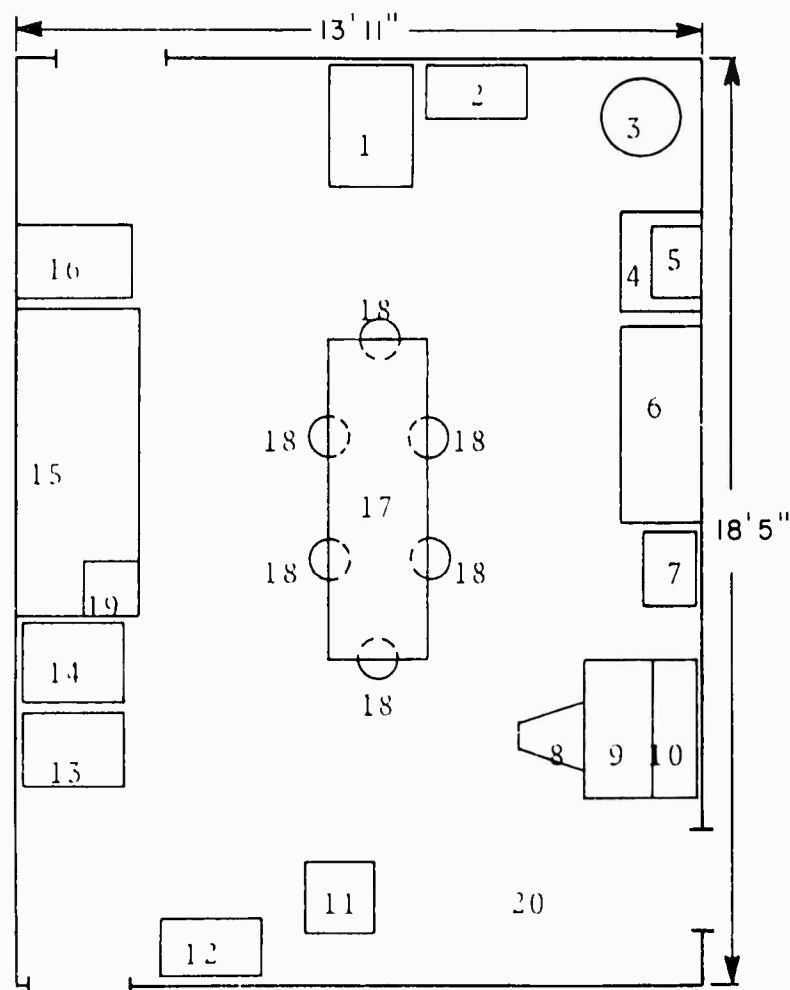

LOCATION: 01-115-2-1

NORMAL USE: Surgical Dressing Room

FLOOR PLAN:

EQUIPMENT:

- 1-Electric baker
- 2-Sterilizer & shelf
- 3-Water heater
- 4-Scrub sink
- 5-X-Ray view box
- 6-Medical locker
- 7-Instrument and dressing stand
- 8-Chair
- 9-Log desk
- 10-book rack
- 11-Examining and treatment chair
- 12-Antidote locker
- 13-File cabinet
- 14-Infra-red lamp
- 15-Cabinet and locker type "A"
- 16-Scale
- 17-Operating table
- 18-Castle lights
- 19-Defibrillator
- 20-Static conductive floor

MINOR SURGERY AREA

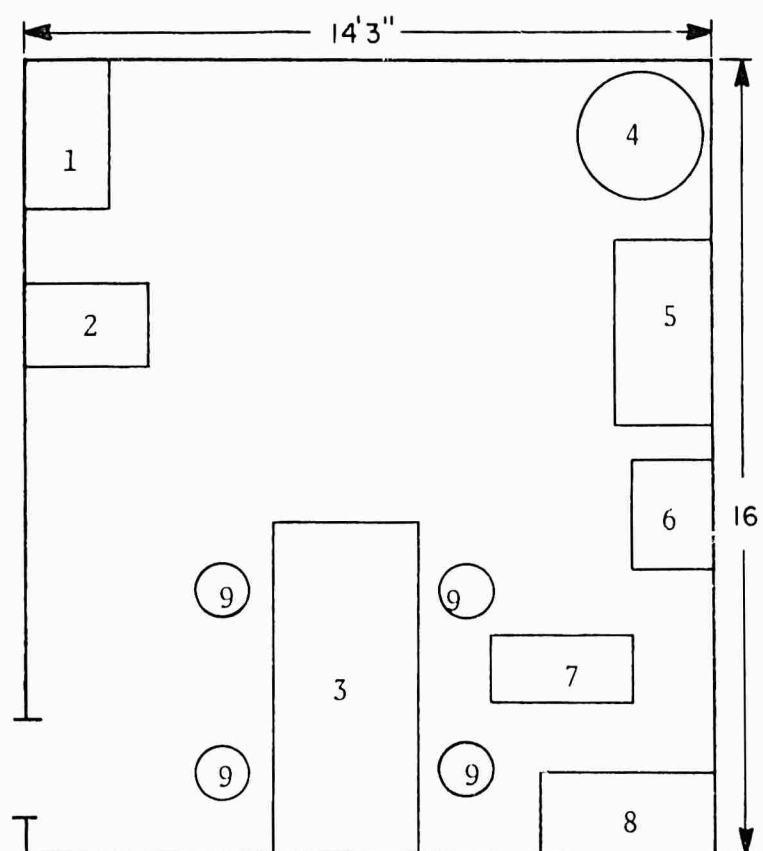

LOCATION: 01-123-2-L

NORMAL USE: Examining Room (Aviation)

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Desk
- 2-File cabinet
- 3-Folding table
- 4-Water heater
- 5-Cabinet
- 6-Sink
- 7-Slit lamp
- 8-Sterilizer
- 9-Castle lights

PRIMARY WARD

LOCATION: 01-122-2-1.

NORMAL USE: Ship's ward

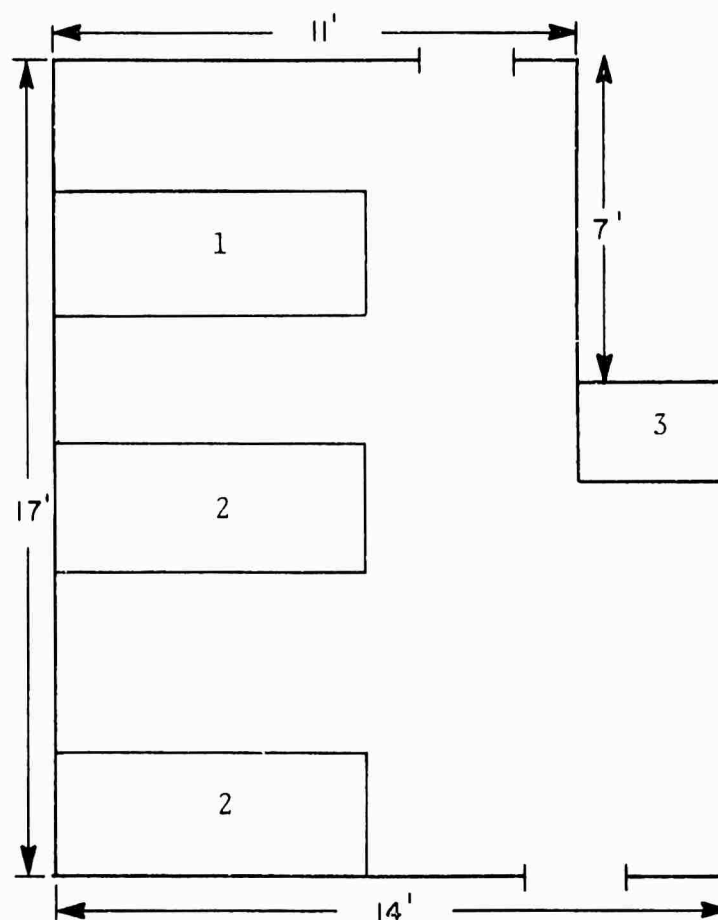

FLOOR PLAN:

EQUIPMENT:

1-Orthopedic bed

2-Bunks (2 high)

3-Desk

OVERFLOW WARD #1

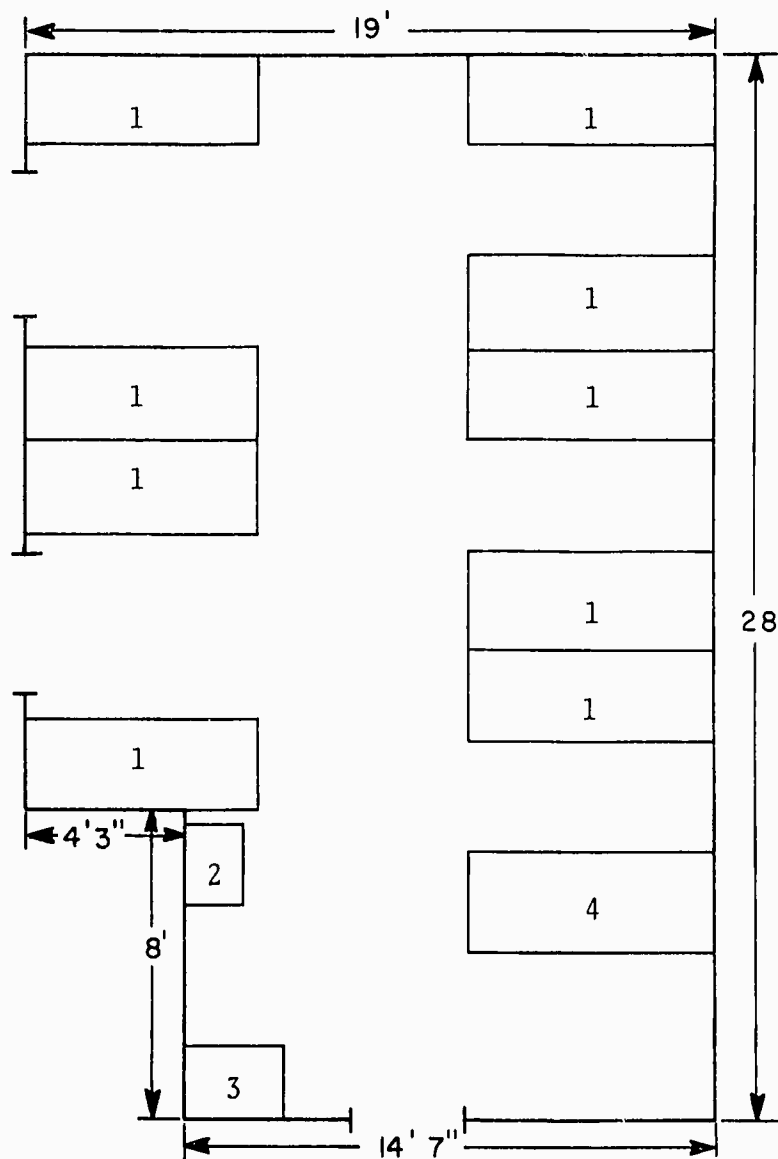

LOCATION: 01-127-0-L

NORMAL USE: Troop Ward

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Beds (total 19)
- 2-Sterilizer
- 3-Desk
- 4-Orthopedic Bed

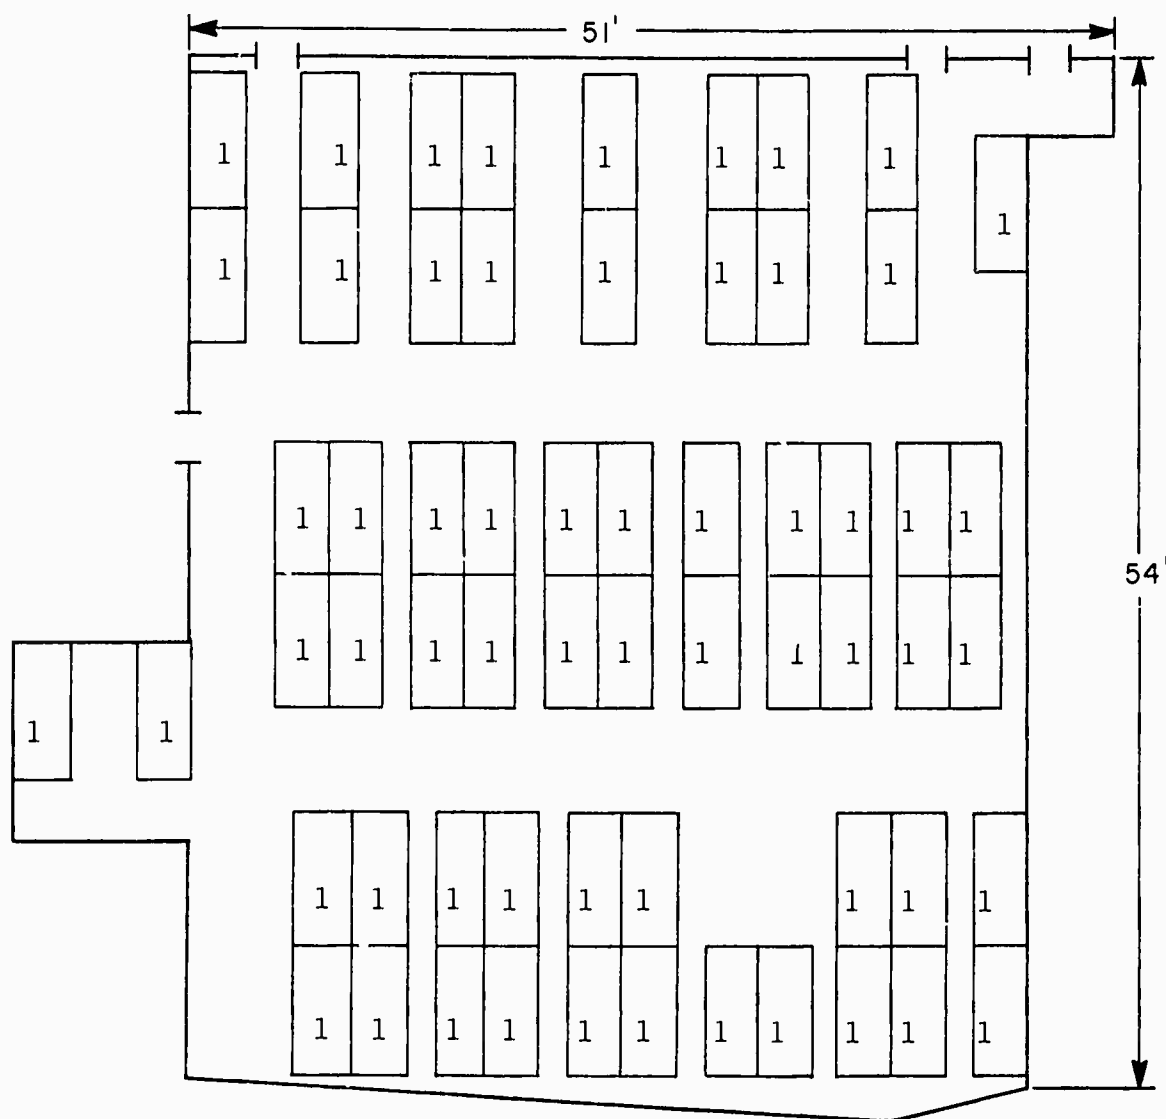

OVERFLOW WARD #2

LOCATION: 01-131-0-L

NORMAL USE: Troop Living Space

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Beds (total 108)

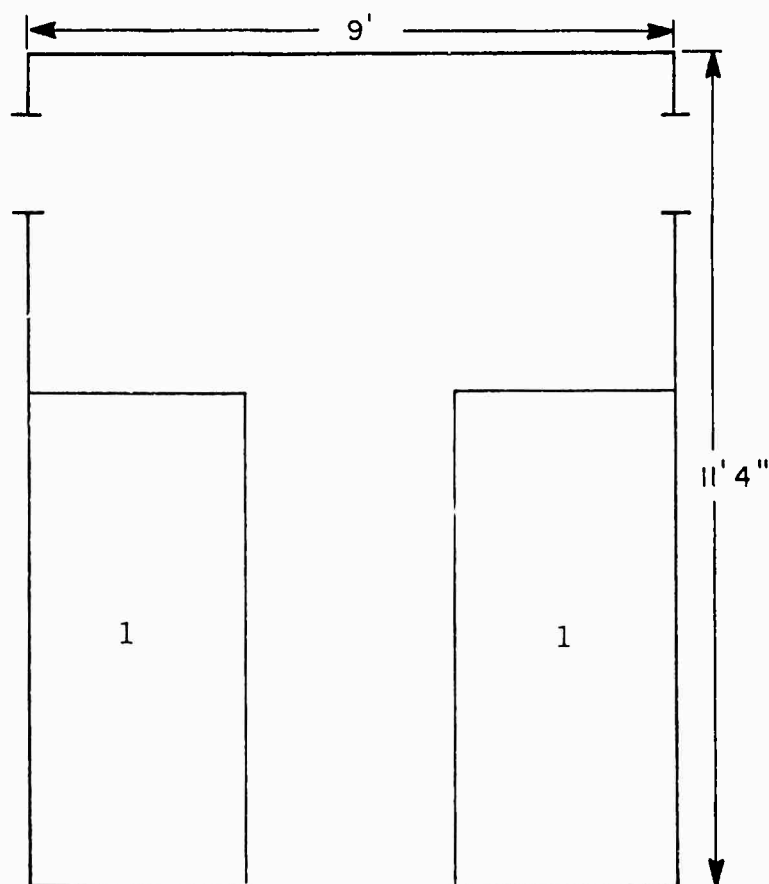

QUIET ROOM

LOCATION: 01-122-1-L

NORMAL USE: Isolation Ward

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Beds (total 4)

LABORATORY

LOCATION: 01-120-1-L

CAPABILITY: All routine clinical, biochemical, hematological, and bacteriological determinations. Regular cross-matching and blood donor procedures.

Blood Storage Capability: 200 bags; 60 bottles

MAJOR EQUIPMENT:

- | | |
|------------------------------|-----------------------------|
| 1. Microhematocrit reader | 8. Rotator, VDRL |
| 2. Small centrifuge | 9. Pipette shaker |
| 3. Water bath | 10. Flame photometer |
| 4. Microcapillary centrifuge | 11. Spectro photometer |
| 5. Bacteriological incubator | 12. Blood bank refrigerator |
| 6. Drying oven | 13. Binocular microscope |
| 7. Shaking machine | 14. Colorimeter |

X-RAY

LOCATION: 01-126-1-L

MAJOR EQUIPMENT:

1. Fixed X-Ray table with Buckey 100ma/100kv unit
2. X-Ray dryer
3. Field type processing tanks
4. Automatic film processor to be installed

DENTAL X-RAY

LOCATION: 01-118-1-L

MAJOR EQUIPMENT:

- | | |
|-------------------|----------------|
| 1. Dental chair | 5. Dryer |
| 2. X-Ray unit | 6. Safe light |
| 3. Tank-developer | 7. X-Ray light |
| 4. Water fixer | |

CAST ROOM

LOCATION: 01-123-2-L

CAPABILITY: Routine extremity casting with limited body application. This area normally used as Aviation Examining Room.

PHYSIOTHERAPY

LOCATION: 01-130-2-L

CAPABILITY: Physiotherapy for extremities

MAJOR EQUIPMENT:

1. Arm whirlpool bath
2. Leg whirlpool bath
3. Sitz bath

PHARMACY

LOCATION: 01-115-3-L

CAPABILITY: Compounding and dispensing drugs

MAJOR EQUIPMENT:

1. Scales and balance

CENTRAL SUPPLY/STERILIZATION ROOM

LOCATION: 01-117-1-L

Autoclaves by type:
AMSCO Auto
American-steam heat
Portable pressure sterilizer

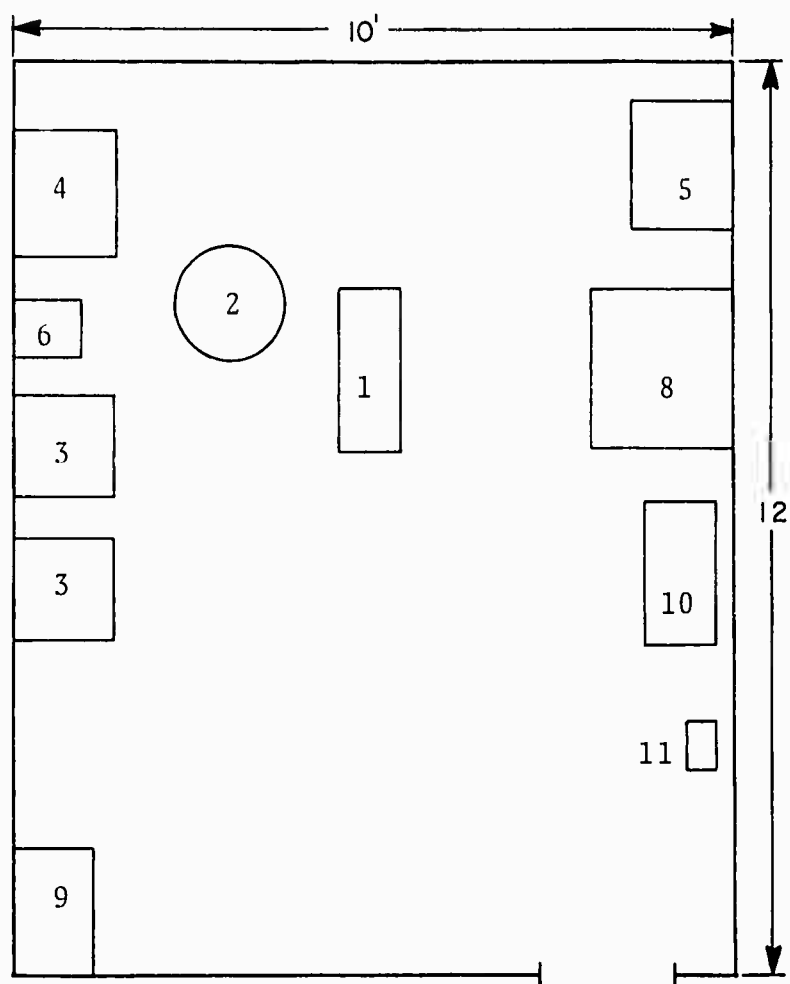

DENTAL OPERATING ROOM #1

LOCATION: 01-115-9-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Ritter chair
- 2-Weber P-64 unit
- 3-Hamilton cabinets
- 4-Speed clave
- 5-Dri-clave
- 6-Surgical pump
- *7-2 each Pedigo chairs
- 8-Sink
- 9-Desk
- 10-Instrument cabinet
- 11-Amalgamator

*Not shown on drawing

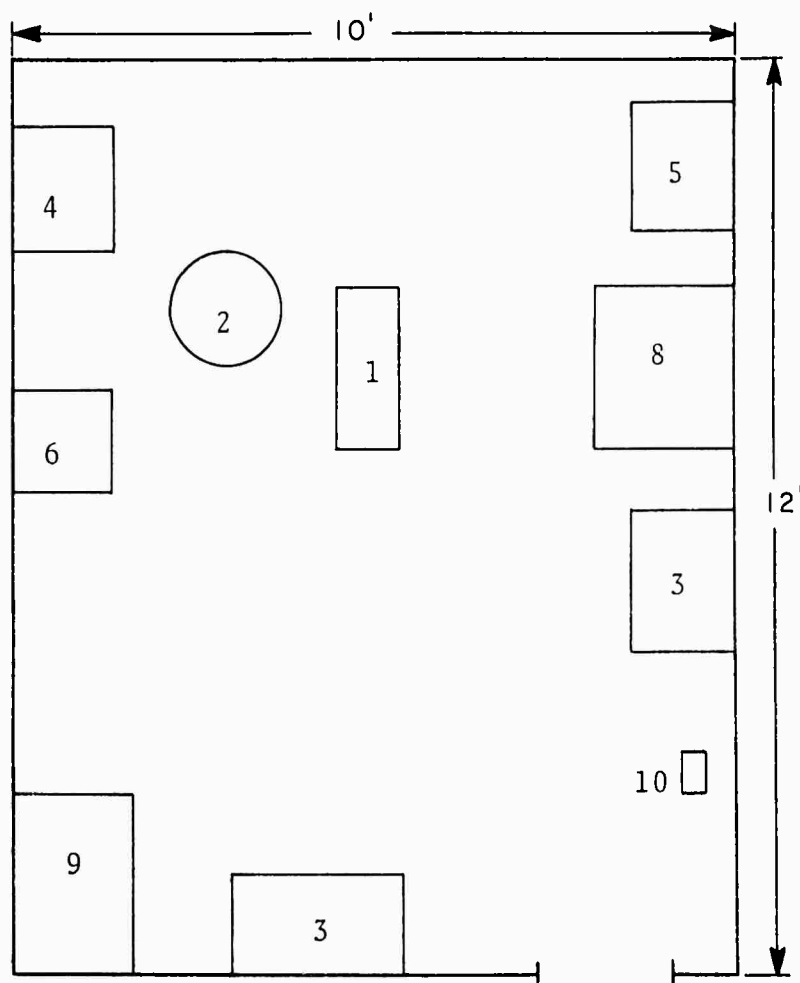

DENTAL OPERATING ROOM #2

LOCATION: 01-119-1-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Ritter chair
- 2-Weber P-64 unit
- 3-Hamilton cabinets
- 4-Speed clave
- 5-Dri-clave
- 6-Surgical pump
- *7-2 each Pedigo chairs
- 8-Sink
- 9-Desk
- 10-Amalgamator

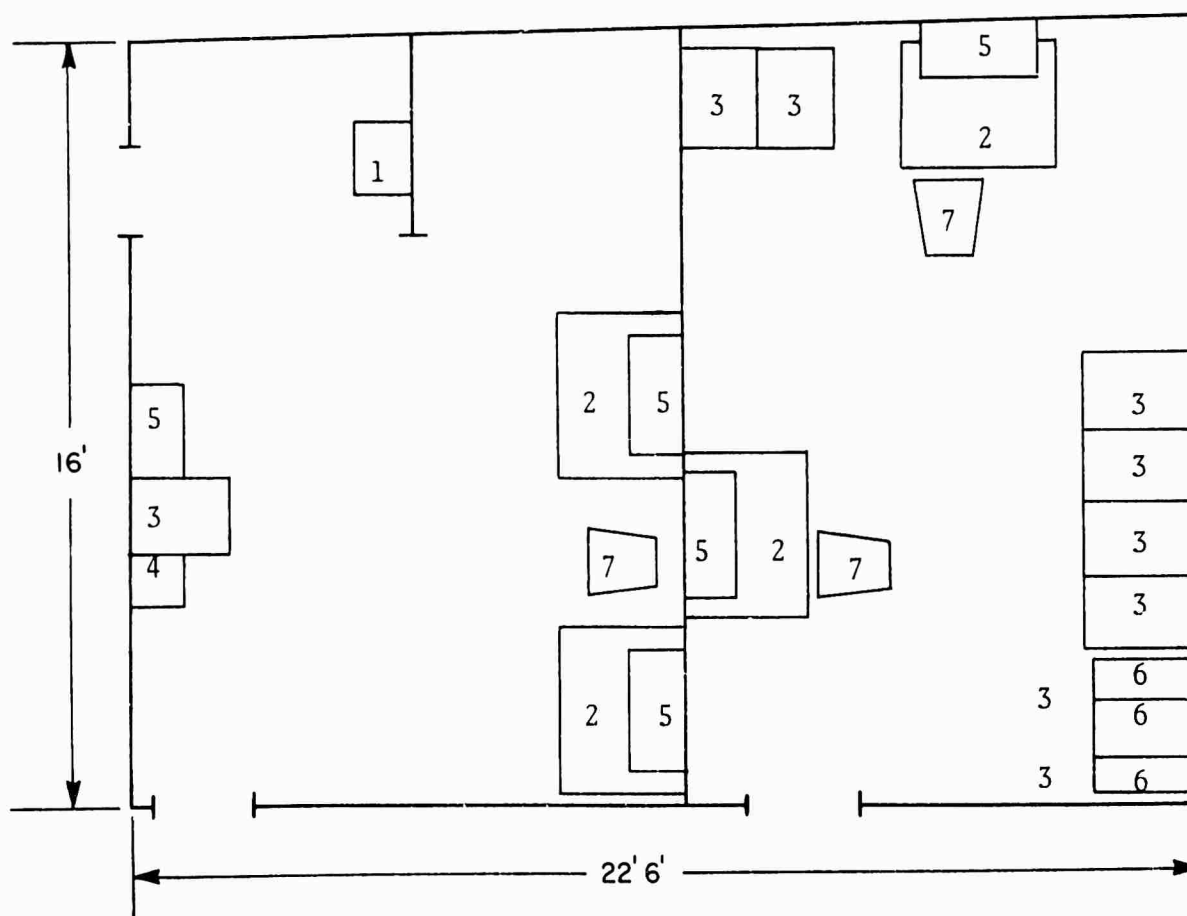

MEDICAL ADMINISTRATION

LOCATION: 01-117-2-Q and 01-115-6-Q

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Sink
- 2-Desk
- 3-File
- 4-Safe
- 5-Book rack
- 6-Visible index cabinet (over)
- 7-Chair

MEDICAL SUPPLY

LOCATION: 4-53-2-A, 01-129-2-A, 01-118-1-A, 2-107-5-L

FLOOR PLAN:

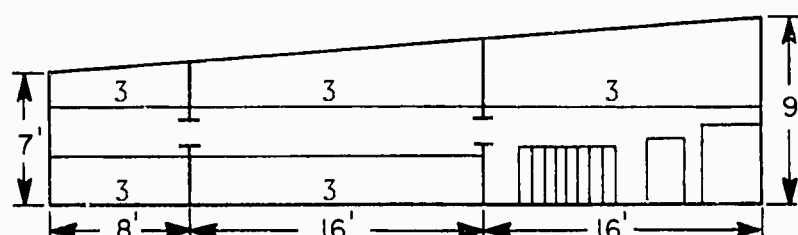

EQUIPMENT:

1-Locker

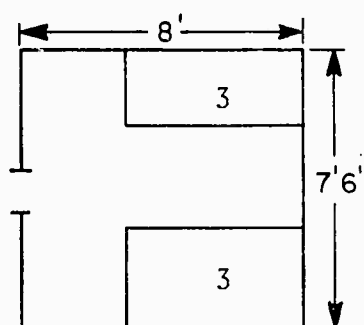

2-Safe

3-Shelves

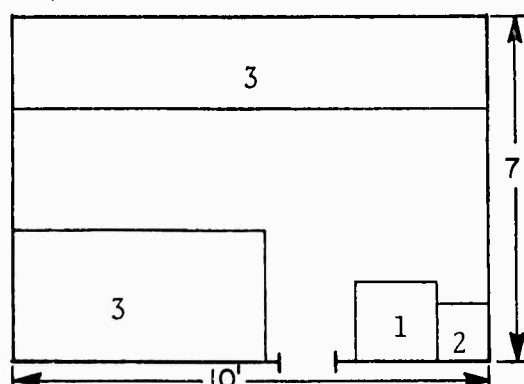

Storeroom #1 - Bulk Supplies, Blankets, Battle Dressings, Linen
(4-53-2-A)

Storeroom #2 - High Usage Items, Evacuation Supplies, Casting
(01-129-2-A) Supplies, IV Fluids, Sutures, Bandages, Needles;
Syringes

Storeroom #3 - Pharmacy Supplies, Locker, Safe
(01-118-1-A)

See NWIP 11

MEDICAL MISSION:

- (1) Medical care for ship's crew
- (2) Medical support to other ships
- (3) Medical support for embarked non-crew personnel
- (4) Casualty receiving/evacuation

MEDICAL ASSETS:

Asset	Normal Use/Type	Remarks
Triage Area	Main Mess	Mess tbls; Port X-Ray
Operating Room (s)	Operating Room	Too small
Non-Ded OR(s)		None
Minor Surgery Room	Dress & treat, Pharm	Not usable as OR
Primary Ward	Ward	16 Beds
Overflow Ward(s)		None designated
Quiet Room(s)		Part of Primary Ward
Intensive Care Unit		None
X-Ray	Portable	Plus aux. equipment
Physiotherapy		None
Pharmacy		In Minor Surgery
Blood Storage		None
Morgue		None
Dental OR	Ritter, Model C	Complete unit
Dental X-Ray	SS White Spacesaver	In Dental OR
Laboratory	Laboratory	Standard lab
Admin. Office	Medical Admin.	Remote location
Supply Room	3 Storerooms	No central med. sup.
Battle Dressing Stations	Standard	3 each

CASUALTY FLOW:

(1) Helicopter platform on Main Deck to adjacent triage area on Main Deck to general purpose elevator to Second Deck to primary medical space.

(2) Boat in Well Deck to general purpose elevator, to triage on Main Deck to elevator to Second Deck to primary medical space.

SIGNIFICANT DEFICIENCIES:

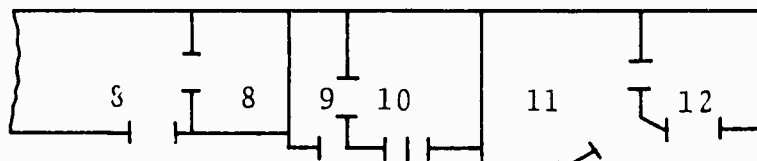

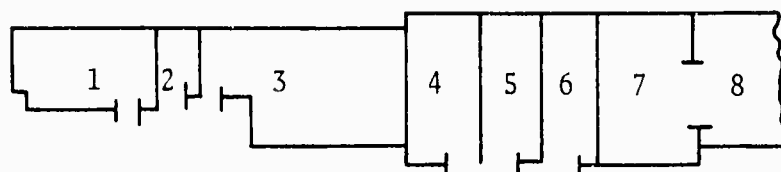

(1) Operating Room is too small. It is crowded with an unnecessary sink and cabinets.

(2) Medical spaces are noisy and poorly laid out.

(3) Equipment lists are deficient. They lack essential minor surgery equipment but have an excess of non-essential equipment.

- 1-Operating table
- 2-Surgical lights
- 3-Conductive floor
- *4-3 portable suction units
- *5-Port Bovie cauter.
- *6-Port anesth. unit
- 7-Cabinets
- 8-Sink
- 9-X-Ray viewbox

* Not shown on drawing

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

MINOR SURGERY ROOM

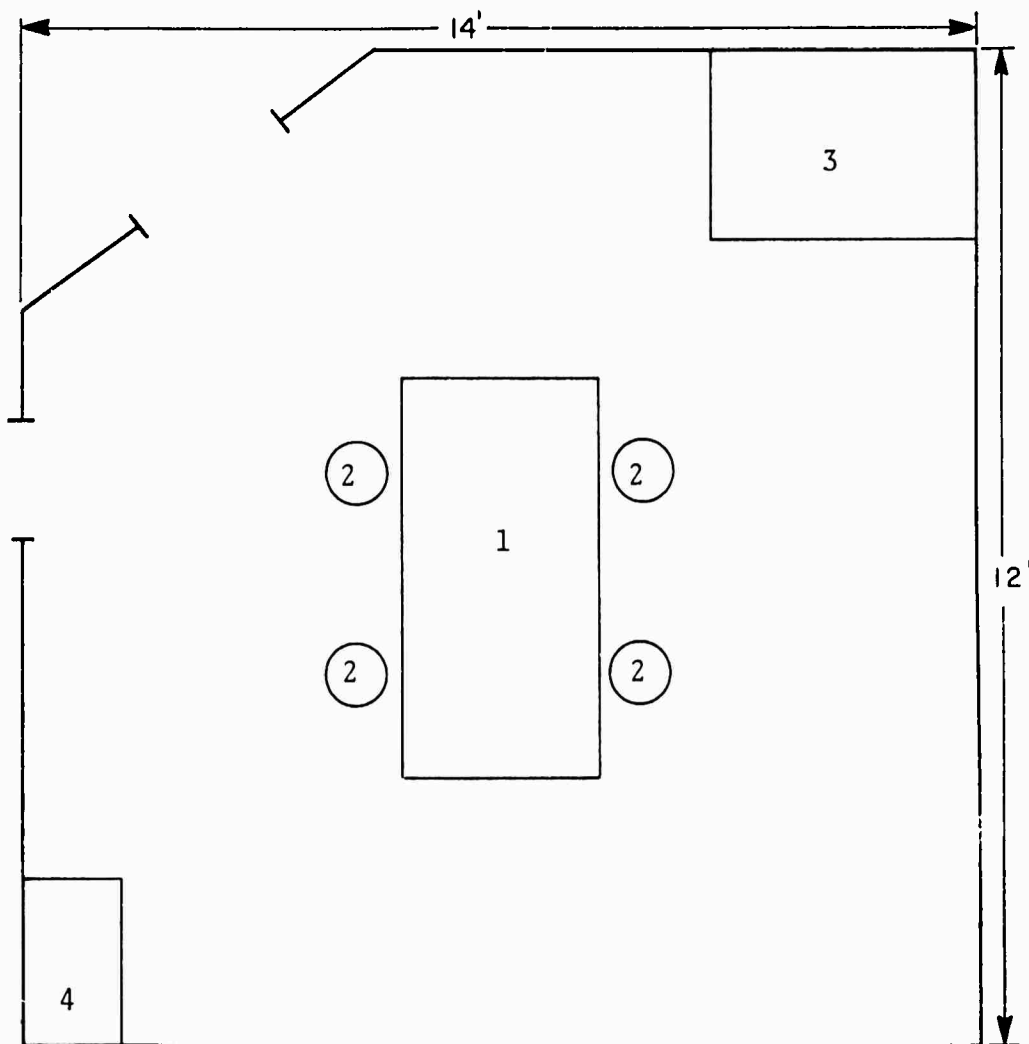

LOCATION: 2-102-2-L

NORMAL USE: Treatment Room and Pharmacy

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Examining table
- 2-Lights
- 3-Water tank
- 4-Sink

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

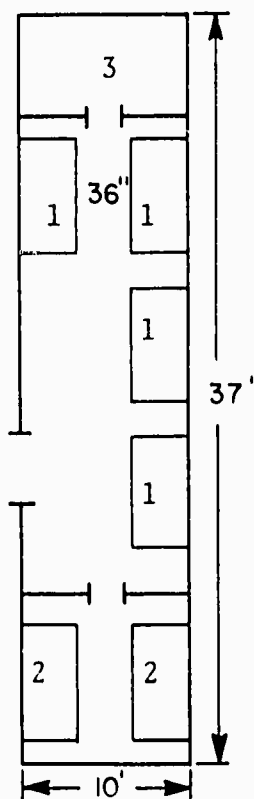

PRIMARY WARD

LOCATION: 2-116-2-1

NOTE: The quiet room is incorporated into one end of the ward.

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Bed unit-3 beds
high
2-Bed unit-2 beds
high
3-Toilet area

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

DENTAL OPERATING ROOM

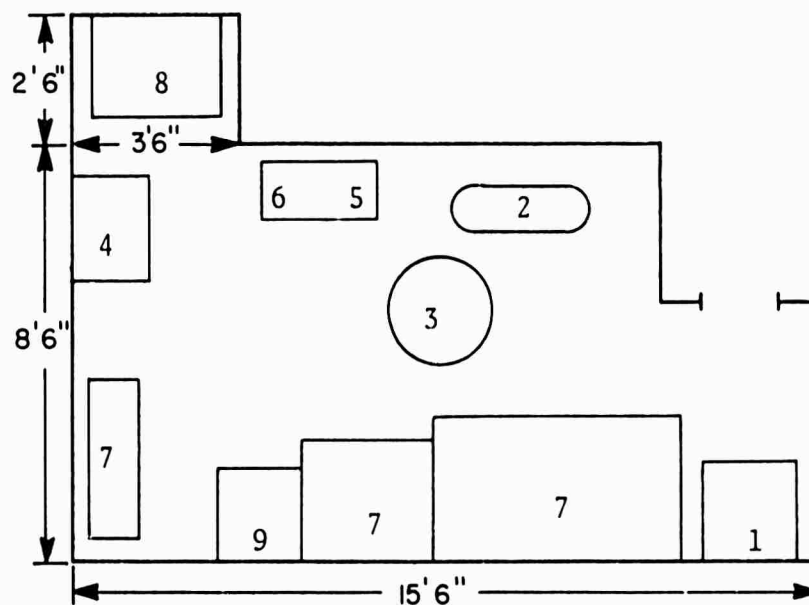

LOCATION: 2-144-4-L

NOTE: Includes Dental X-Ray and Dental Supply

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-SS White Space-saver X-Ray unit
- 2-Ritter, Model C, Type I dental operating unit
- 3-Ritter Vega Air-glide dental operating chair
- 4-Ritter Speedclave sterilizer
- 5-Torit Amalgamator
- 6-Dentsply cavitron
- 7-Cabinet
- 8-Sink
- 9-Typing stand

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

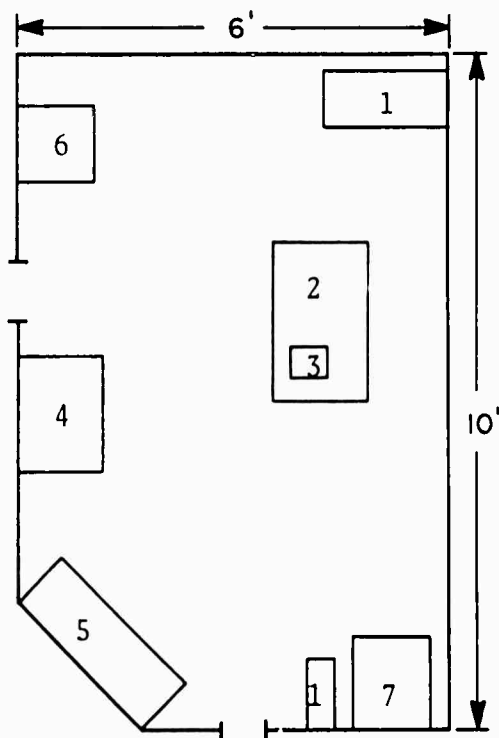

MEDICAL ADMINISTRATION

LOCATION: 2-96-4-Q

NOTE: Medical administration and medical supply administration
are combined in this office.

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Files
2-Desk
3-Typewriter
4-Table
5-Bookcase
6-Desk
7-Cabinet

USS CORONADO

(Assumed to be similar to ^{LPD-11}~~LPD-13~~)

LABORATORY

LOCATION: 2-136-2-Q

EQUIPMENT:

1-Microscope	4-Agglutinating machine
2-Hematocrit centrifuge	5-Spectrophotometer
3-Large centrifuge	6-Millipore H ₂ O

X-RAY

LOCATION: Portable - Dark Room 2-138-2-L

EQUIPMENT:

1-X-Ray film dryer	3-X-Ray film storage container
2-X-Ray film developer tank	4-X-Ray view box

STERILIZATION ROOM

LOCATION: 2-113-2-L

EQUIPMENT:

1-Small electric/gas autoclave
2-Large AMSCO cylinder autoclave

MEDICAL SUPPLY

Note: Three storerooms are used for medical supplies but there is no central medical supply as such. Medical supply administration is handled through the medical administration office.

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

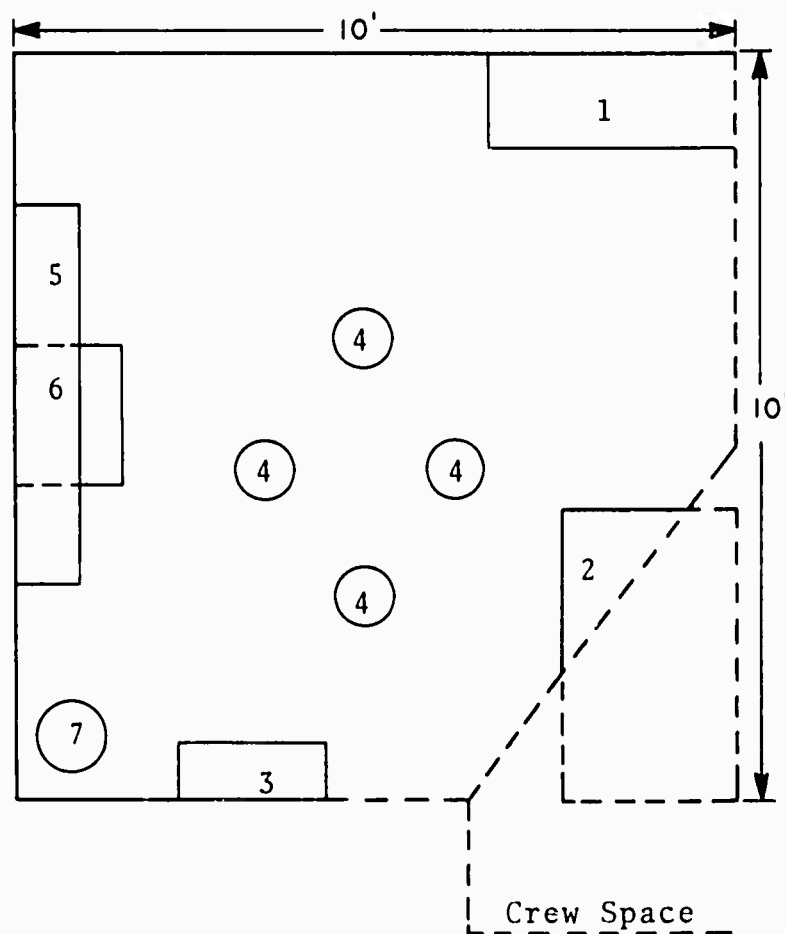

BATTLE DRESSING STATION #1

LOCATION: 2-36-U-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Cabinets
- 2-Water tank (overhead)
- 3-Sink
- 4-Lamps
- 5-Dressing table
- 6-Folding table (folded)
- 7-Water heater

USS CORONADO

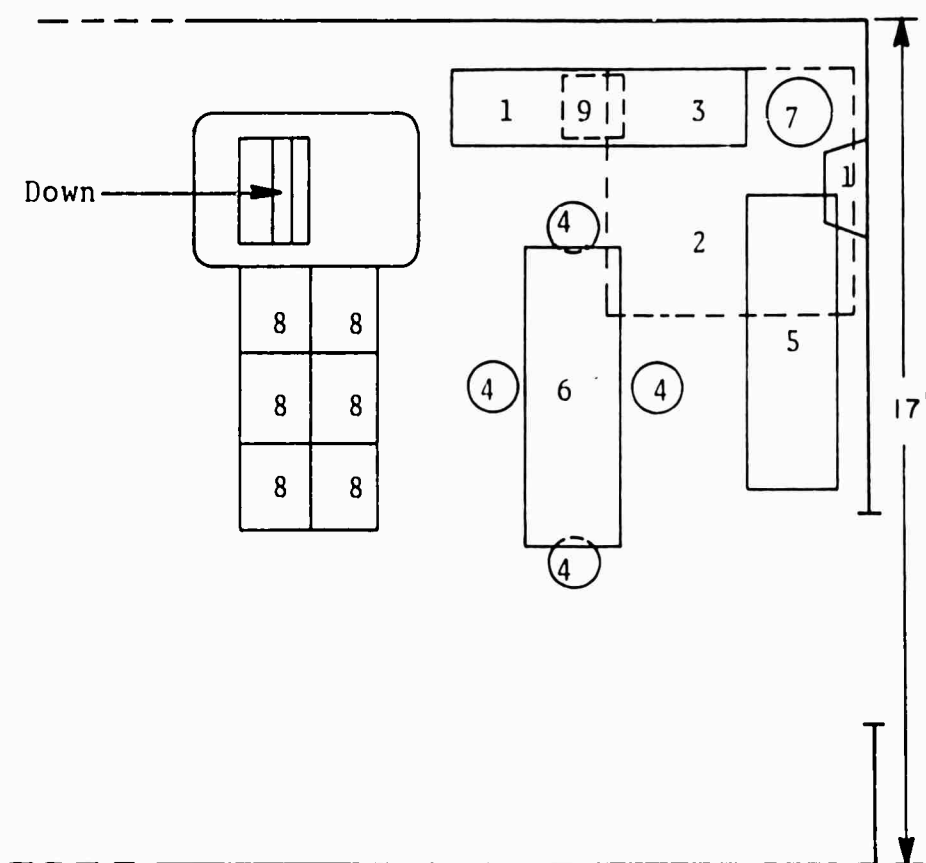

(Assumed to be similar to LPD-11
LPD-13)

BATTLE DRESSING STATION #2

LOCATION: 2-184-1-L

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Cabinets
2-Water tank
3-Sink
4-Castle lights
5-Dressing table
6-Folding table
7-Water heater
8-Lockers
9-Sterilizer

USS CORONADO

(Assumed to be similar to LPD-11
LPD-13)

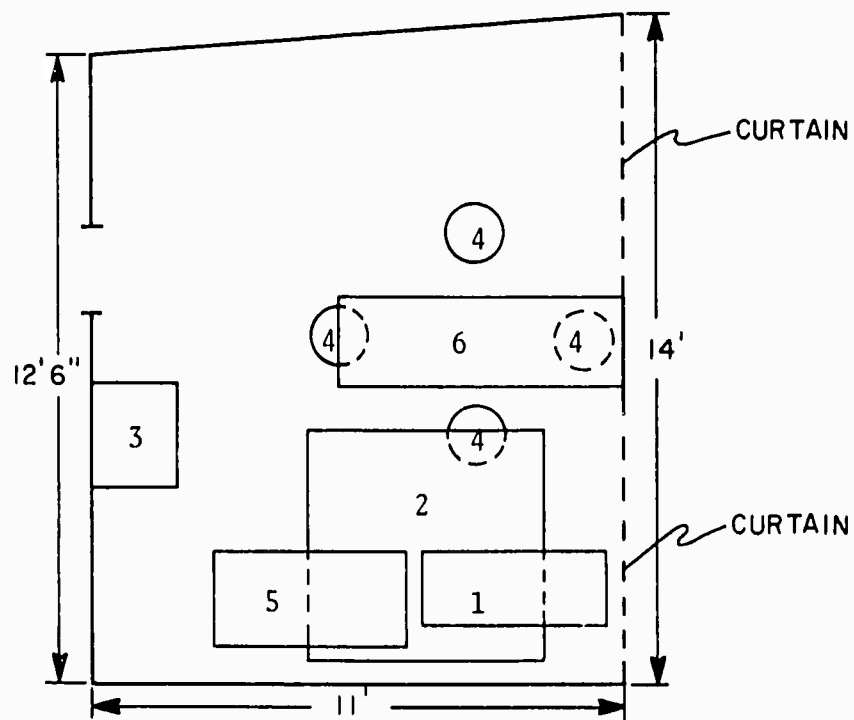

BATTLE DRESSING STATION #3

LOCATION: 2-232-2-1.

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Lockers
- 2-Water tank(overhead)
- 3-Sink
- 4-Castle lights
- 5-Dressing table
- 6-Folding OR table

USS CORONADO

(Assumed to be similar to ^{LPD-11}~~LPD-13~~)

COMPLEMENT:

<u>SPECIALTY</u>	<u>RANK OR RATE</u>
2100 Med Officer	LT
8406 Aviation Med Tech	HMC
8404 Field Med Tech	HM1
8482 Pharmacy Tech	HM2
0000 Striker	SN
2200 Dental Officer	LT
0000 General	DT1

NOTE: Complement is one man too small and contains wrong specialties. It should include a Laboratory Assistant and an Operating Room Technician. There is no requirement for a Pharmacy Technician.

STATUS OF OUTSTANDING SHIPALTS:

Not determined.

SIZE AND LOCATION OF BREAKOUT AREA FOR SURGICAL BLOCK:

None necessary, as ship is not assigned a Surgical Team.

STOWAGE NEAR HELO PAD FOR REPLACEMENT LITTERS AND BLANKETS:

Stowage is provided for litters, but not blankets.

USS NASHVILLE

LPD-13

TRIAGE AREA

LOCATION: Main Mess Hall 1-84-0-L

FLOOR PLAN: A large area just forward of the helicopter landing area normally used for the crew and troop mess. Area exceeds 1600 square ft. of floor space.

EQUIPMENT:
1-Portable X-Ray
unit

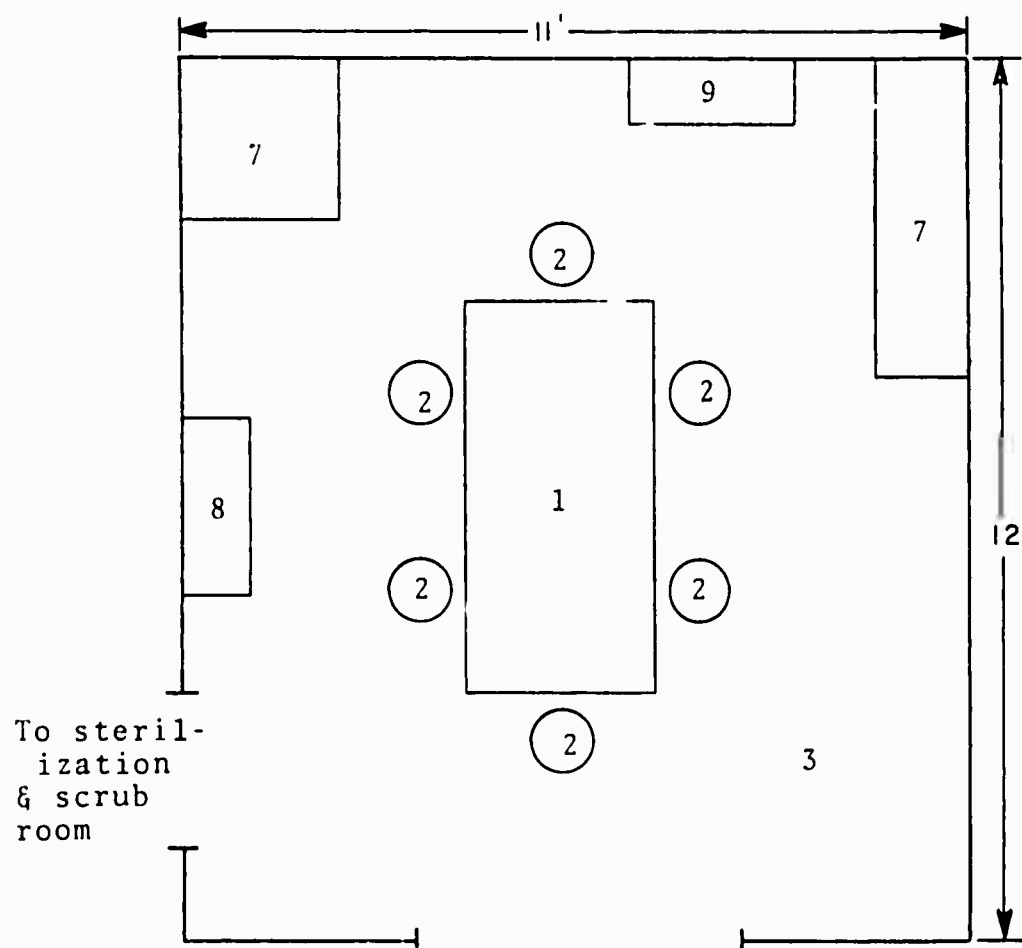

OPERATING ROOM

LOCATION: 2-108-4-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Operating table
- 2-Surgical lights
- 3-Conductive floor
- *4-3 portable suction units
- *5-Port Bovie cauter.
- *6-Port anesth. unit
- 7-Cabinets
- 8-Sink
- 9-X-Ray viewbox

* Not shown on drawing

MINOR SURGERY ROOM

LOCATION: 2-102-2-L

NORMAL USE: Treatment Room and Pharmacy

FLOOR PLAN: Not to scale

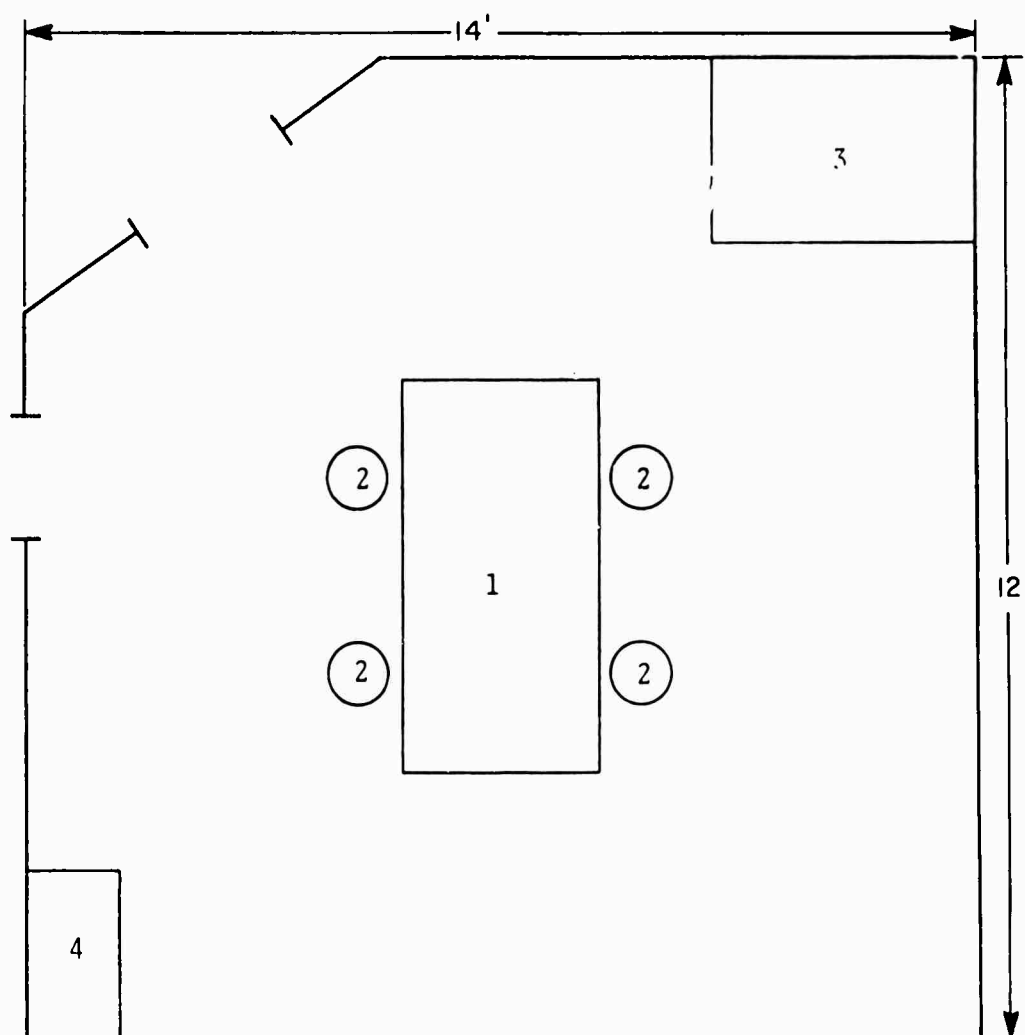

EQUIPMENT:

1-Examining table

2-Lights

3-Water tank

4-Sink

PRIMARY WARD

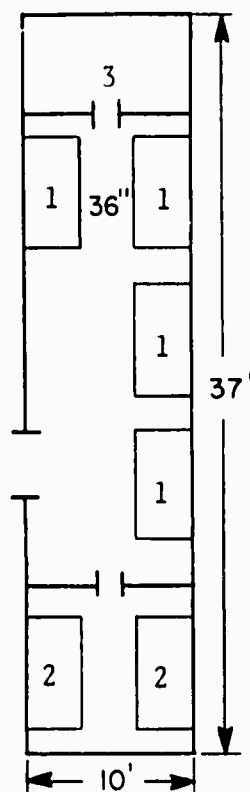

LOCATION: 2-116-2-L

NOTE: The quiet room is incorporated into one end of the ward.

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Bed unit-3 beds
high
- 2-Bed unit-2 beds
high
- 3-Toilet area

DENTAL OPERATING ROOM

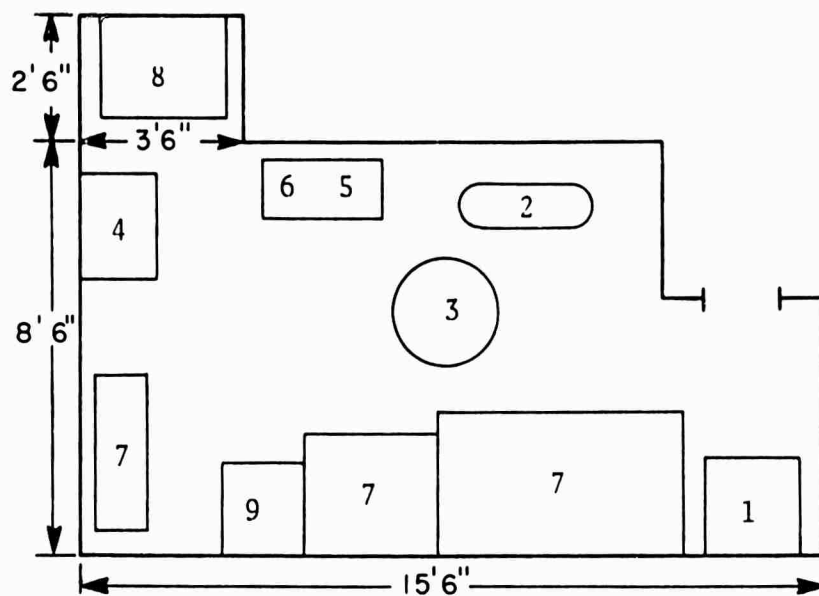

LOCATION: 2-144-4-L

NOTE: Includes Dental X-Ray and Dental Supply

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-SS White Space-saver X-Ray unit
- 2-Ritter, Model C, Type I dental operating unit
- 3-Ritter Vega Air-glide dental operating chair
- 4-Ritter Speedclave sterilizer
- 5-Torit Amalgamator
- 6-Dentsply cavitron
- 7-Cabinet
- 8-Sink
- 9-Typing stand

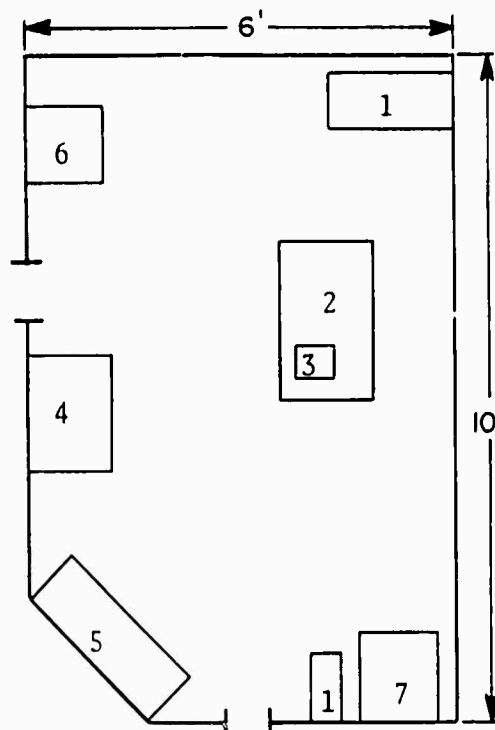

MEDICAL ADMINISTRATION

LOCATION: 2-96-4-Q

Note: Medical administration and medical supply administration are combined in this office.

FLOOR PLAN: Not to scale

EQUIPMENT:
1-Files
2-Desk
3-Typewriter
4-Table
5-Bookcase
6-Desk
7-Cabinet

LABORATORY

LOCATION: 2-136-2-Q

EQUIPMENT:

1-Microscope	4-Agglutinating machine
2-Hematocrit centrifuge	5-Spectrophotometer
3-Large centrifuge	6-Millipore H ₂ O

X-RAY

LOCATION: Portable - Dark Room 2-138-2-L

EQUIPMENT:

1-X-Ray film dryer	3-X-Ray film storage container
2-X-Ray film developer tank	4-X-Ray view box

STERILIZATION ROOM

LOCATION: 2-113-2-L

EQUIPMENT:

1-Small electric/gas autoclave
2-Large AMSCO cylinder autoclave

MEDICAL SUPPLY

Note: Three storerooms are used for medical supplies but there is no central medical supply as such. Medical supply administration is handled through the medical administration office.

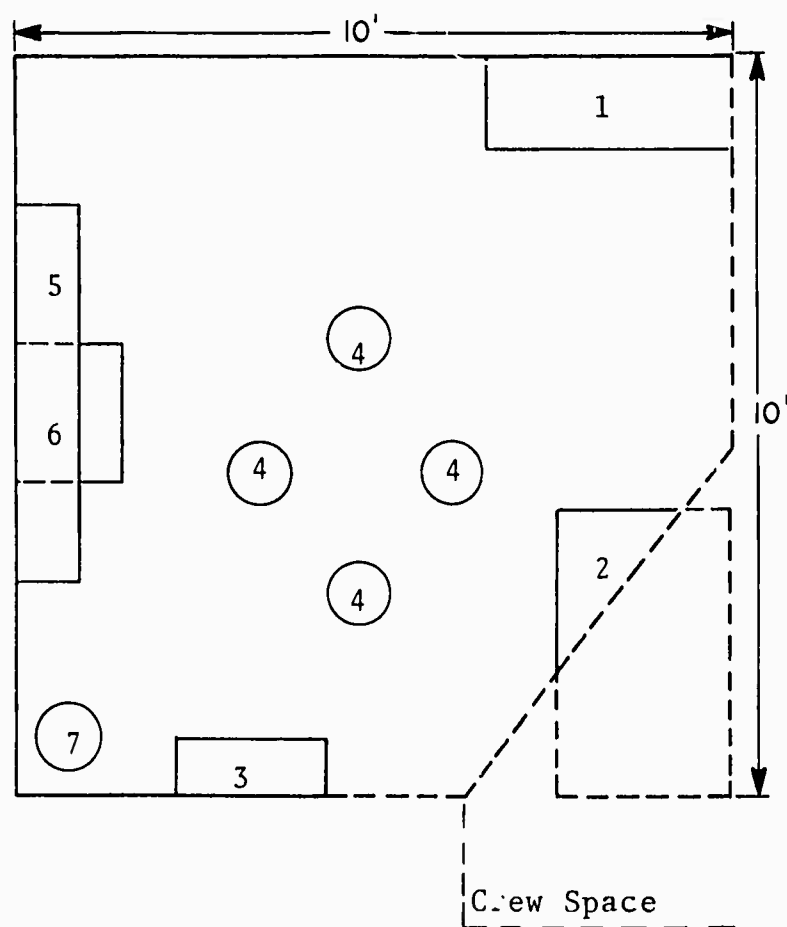

BATTLE DRESSING STATION #1

LOCATION: 2-36-0-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Cabinets
- 2-Water tank (overhead)
- 3-Sink
- 4-Lamps
- 5-Dressing table
- 6-Folding table (folded)
- 7-Water heater

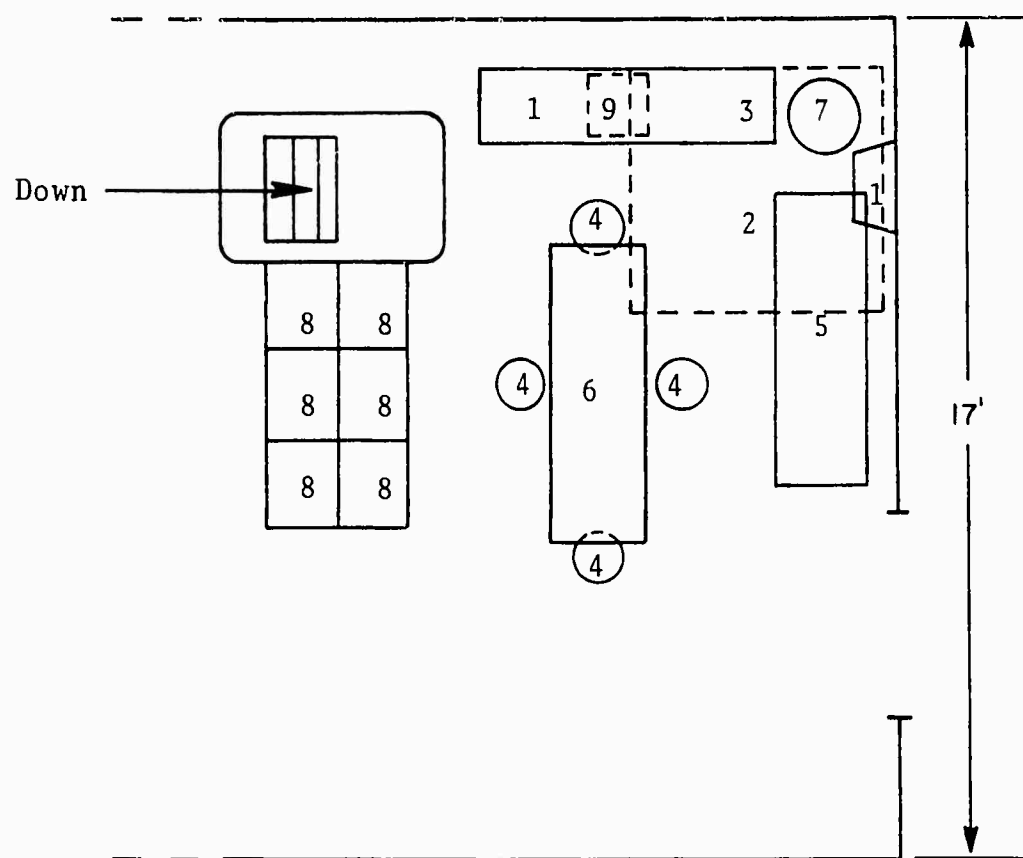

BATTLE DRESSING STATION #2

LOCATION: 2-184-1-L

FLOOR PLAN: Not to scale

EQUIPMENT:
 1-Cabinets
 2-Water tank
 3-Sink
 4-Castle lights
 5-Dressing table
 6-Folding table
 7-Water heater
 8-Lockers
 9-Sterilizer

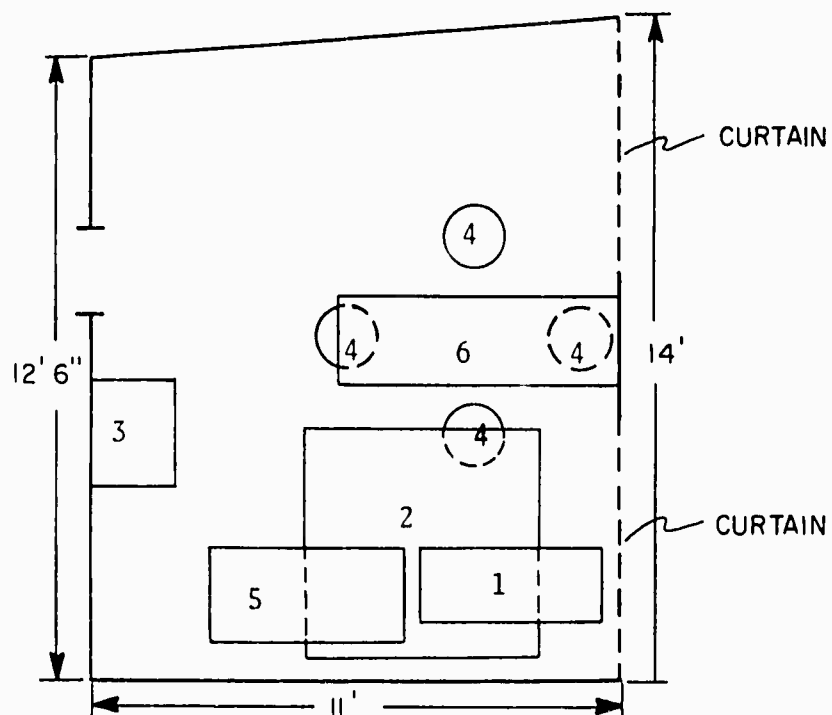

BATTLE DRESSING STATION #3

LOCATION: 2-232-2-1.

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-Lockers
- 2-Water tank (overhead)
- 3-Sink
- 4-Castle lights
- 5-Dressing table
- 6-Folding OR
table

USS NASHVILLE

BATTLE DRESSING STATION #2

LOCATION: 2-195-1-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-OR table
- 2-Stokes litter stowage
- 3-Folding shelf
- 4-Solution basin
- 5-Scrub sink
- 6-Lockers
- 7-Inst. sterilizer
- 8-Water tank (overhead)

USS NEWPORT

LST-1179

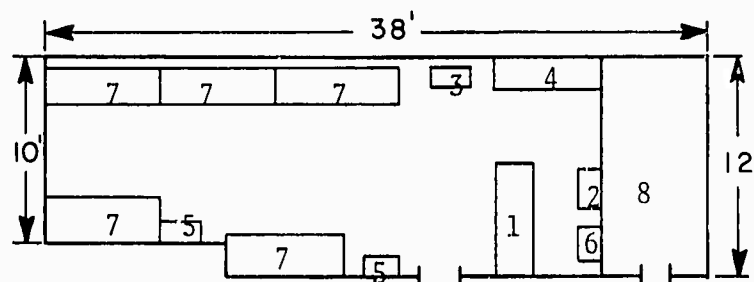

BATTLE DRESSING STATION #3

LOCATION: 2-97-2-L

FLOOR PLAN: Not to scale

EQUIPMENT:

- 1-OR table, ped. type II
- 2-Sink
- 3-Locker
- 4-Shelf
- 5-Lockers
- 6-Sterilizer
- 7-Beds (3 high)
- 8-Crew water closet and shower

USS NEWPORT

LST-1179

COMPLEMENT:

SPECIALTY

RANK OR RATE

Independent Duty
General Service

HM1
HM3

STATUS OF OUTSTANDING SHIPALTS:

None

SIZE AND LOCATION OF AREA FOR BREAKOUT OF SURGICAL BLOCK:

Tank deck, as needed.

STOWAGE NEAR HELO PAD FOR REPLACEMENT LITTERS AND BLANKETS:

None provided, but could be set up. Exchange is routine procedure.

TACTICAL MISSION:

See NWIP 11

MEDICAL MISSION:

- (1) Medical care for ship's crew
- (2) Medical support for embarked non-crew personnel
- (3) Casualty receiving/evacuation

MEDICAL ASSETS:

Asset	Normal Use/Type	Remarks
Triage Area	Tank Deck	
Operating Room(s)		None
Non-Ded OR(s)		None
Minor Surgery Room	Sick Bay	
Primary Ward	Sick Bay	
Overflow Ward(s)	Berthing Comp.	
Quiet Room(s)		None
Intensive Care Unit		None
X-Ray		None
Physiotherapy		None
Pharmacy		None
Blood Storage		None
Morgue	Refrigerator	
Dental OR		None
Dental X-Ray		None
Laboratory	Sick Bay	Routine tests
Admin. Office	Sick Bay	
Supply Room	Medical Storeroom	
Battle Dressing Stations		Standard Equipment

CASUALTY FLOW:

- (1) Boat to stern ramp, Tank Deck forward to hoist to main medical space.
- (2) Helo pad, forward on port side through hatch and down ladder to main medical space.
- (3) Helo pad, to Tank Deck via cargo hatch, forward to hoist to main medical space.

SIGNIFICANT DEFICIENCIES:

None determined; ship is under construction.

MINOR SURGERY AREA

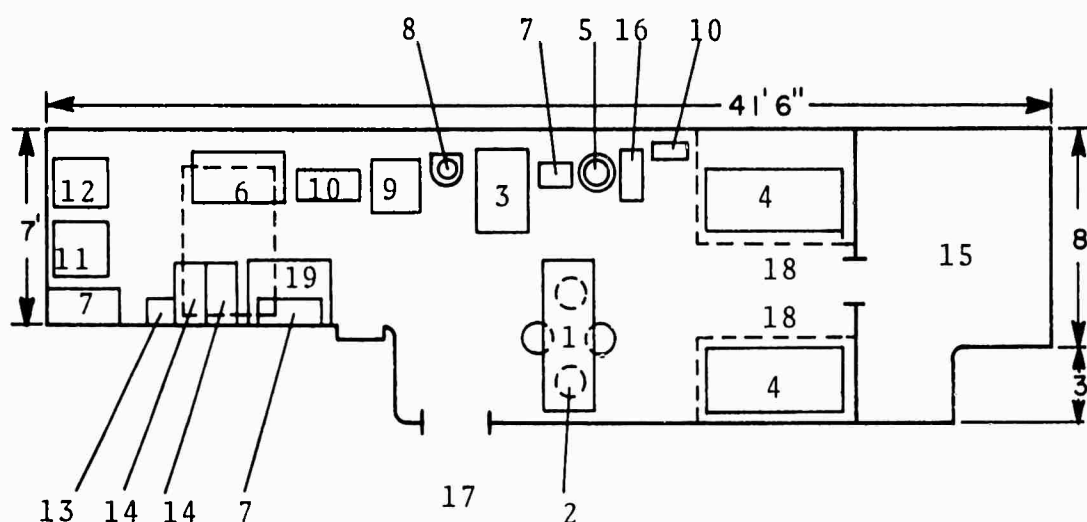

LOCATION: 2-133-2-L

NORMAL USE: Main Medical Space

SECTION III

MEDICAL CAPABILITY SUMMARY

3.1 Facility Summary

Figure 3-1, Medical Capability Summary, provides a list of the ships of the Amphibious Force, U. S. Atlantic Fleet, which are anticipated to be in active service in the immediate future. Significant medical assets of each ship identified are listed by quantity. Where a facility is primarily designated to fill a lesser medical role but possesses facilities which could be used for a more demanding medical requirement, it is identified to function in the more demanding capacity. Total assets are grouped by type to provide insight into the quantity and quality of facilities available.

3.2 Medical Capability Qualitative Analysis

No qualitative analysis of medical facilities was attempted except to compare the facilities of a modern hospital to those of the ships surveyed. As a result of this comparison, the name given to the hospital medical area signifies its comparative relationship with the modern hospital. Some criteria established for designation of specific facilities were:

- Operating Room

- a. A limited access area.
- b. Essential equipment and space for the performance of major surgery including as minimum quality:
 - (1) A fixed operating table with 360° access.
 - (2) Static conductive floor covering.
 - (3) Surgical lights.

- Non-Dedicated Operating Room

A space suitable for use as an operating room, which is normally used for another purpose. It will generally be necessary to add or remove portable equipment to adapt it for use as an operating room.

- Minor Surgery Areas

- a. A limited access area.
- b. Essential equipment to perform minor surgery with local anesthesia.

- Intensive Care Unit
 - a. Single (non-stacked) patient beds.
 - b. Monitoring equipment.
- Battle Dressing Stations

Those meeting standard specifications.
- Primary Ward
 - a. Beds no more than two high with easy access (preferably 360°) and spaced in such a manner that a wheeled litter could be maneuvered within the ward.
 - b. Sufficient medical and medical administrative equipment to care for the total number of patients in the ward.
- Overflow Ward

Crew or troop compartments used as wards.
- Quiet Room

A separate ward containing no more than four beds.

3.3 Medical Care Quantitative Analysis

Quantitative analysis of the medical care to be provided by each of the ships, or the total ships of the Amphibious Force, Atlantic is beyond the scope of this report. Figure 3-1 does, however, provide some insight into the potential major surgery capability assuming that appropriate ships are augmented with Surgical Teams, Surgical Support Teams and essential supporting personnel of the ship or landing force as appropriate. Ships listed in Figure 3-1 which were not visited or which did not submit questionnaires were assumed to possess a medical capability similar to a sister ship.

NOTES: * DATA TAKEN FROM THAT FURNISHED BY SISTER SHIPS OR FROM BOOKLET OF GENERAL PLANS.

M.O. NOT DETERMINED.

(1) EITHER DISPENSING OR COMPOUNDING CAPABILITY.

(2) "ROUTINE" INDICATES ABILITY TO PERFORM BLOOD COUNT, URINALYSIS, AND GRAM STAIN. NOT NECESSARILY A SEPARATE SPACE. "DIAGNOSTIC" INDICATES "ROUTINE" PLUS BLOOD CHEMISTRY, BACTERIOLOGY, BLOOD GROUPING AND CROSS MATCHING, AND SPIRAL FLUID ANALYSIS. SEP-ARATE SPACE.

(3) MAY ALSO BE INDICATED UNDER A SURGERY ROOM.

(4) "ONE" INDICATES FULL FACILITIES FOR A SURGICAL TEAM WITH SUPPLY BLOCK (TWO OPERATING ROOMS). "PARTIAL" INDICATES ONE OPERATING ROOM AND PARTIAL FACILITIES FOR A SURGICAL TEAM WITH SUPPLY BLOCK.
